

# A range of aftermarket accessories for Tow-Pro Elite and Tow-Pro Classic

REDARC has a comprehensive range of accessories for the Tow-Pro range of Electric Brake Controllers, including wiring kits, switch inserts and protection devices, designed to simplify installation of the unit into vehicles.

**Tow-Pro**

## Tow-Pro Wiring Kits (TPWKIT)

Vehicle specific installation kits with all hardware and fitting instructions to deliver a quality and reliable outcome every time whilst protecting the integrity of the vehicle and avoiding the setting of fault codes or damage to the sensitive electronics.

In total eleven kits are available to suit most 4WD vehicles.

Manufacturer	Vehicle	Product code
Holden	Suitable for Colorado	<b>TPWKIT-002</b>
Mitsubishi	Suitable for Triton	<b>TPWKIT-003</b>
Toyota	Suitable for Hilux, Fortuner	<b>TPWKIT-004</b>
Toyota	Suitable for Landcruiser 200	<b>TPWKIT-005</b>
Isuzu	Suitable for D-MAX, MU-X	<b>TPWKIT-006</b>
Toyota	Suitable for Kluger, Prado	<b>TPWKIT-007</b>
Nissan	Suitable for Navara	<b>TPWKIT-008</b>
Mitsubishi	Suitable for Pajero	<b>TPWKIT-009</b>
Volkswagen	Suitable for Amarok	<b>TPWKIT-010</b>
Universal model		<b>TPWKIT-011</b>
Ford	Suitable for Ranger, Everest (all models)	<b>TPWKIT-012</b>

## Tow-Pro Elite Switch Inserts (TPSI-00X)

A Tow-Pro Elite Switch Insert aids in the installation of the Tow-Pro Elite remote head into vehicles. It allows the installer to create an OE-looking remote head mount whilst still maintaining ADR21 compliance (when correctly fitted). REDARC also offer Tow-Pro Switch Inserts in bulk packs of ten. They provide installers with a cost-effective way of creating an OE-looking remote head for multiple installations.

**TPSI-001    TPSI-002    TPSI-003    TPSI-005    TPSI-006    TPSI-007    TPSI-009**

Vehicle	Single unit	Bulk pack of ten
Universal model	<b>TPSI-001</b>	<b>TPSI-001-B</b>
Suitable for Toyota Hilux, Mitsubishi Triton	<b>TPSI-002</b>	<b>TPSI-002-B</b>
Suitable for Holden Colorado	<b>TPSI-003</b>	<b>TPSI-003-B</b>
Suitable for Isuzu D-MAX SX	<b>TPSI-005</b>	<b>TPSI-005-B</b>
Suitable for Isuzu D-MAX LS/MU-X	<b>TPSI-006</b>	<b>TPSI-006-B</b>
Suitable for 70 Series Toyota,	<b>TPSI-007</b>	<b>TPSI-007-B</b>
Suitable for Mazda BT50	<b>TPSI-009*</b>	<b>TPSI-009-B*</b>

\*Suitable for EBRH-ACCV3 installations only.

## Tow-Pro Remote Head Wiring Kits (RHWK-00X)

The Remote Head Wiring Kits are a range of one to six metre cables that interconnect the Remote Head to the Main Unit. These automotive-style connectors increase the flexibility of the installation for the market-leading Tow-Pro Elite V3.

Length	Product code
1 metre	<b>RHWK-001</b>
2 metres	<b>RHWK-002</b>
3 metres	<b>RHWK-003</b>
4 metres	<b>RHWK-004</b>
5 metres	<b>RHWK-005</b>
6 metres	<b>RHWK-006</b>

## Encapsulated Protection Device (EPDK-001)

The Encapsulated Protection Device is a 7 amp diode suitable for both 12 and 24 volt applications. It is totally encapsulated with sealed connections.

The EPDK-001 has been designed to fit in the trailer stop lamp feed to support the installation of Tow-Pro Electric Brake Controllers on vehicles where 'back-feed' of 12 volts (during Tow-Pro Manual Override) may interfere with the vehicle systems. When installed correctly, the EPDK-001 ensures correct trailer braking and stop lamp operation when the vehicle brakes or the Tow-Pro Manual Override is used.

It supports 12 and 24 volt applications capable of supporting a maximum continuous current of 7 amps at a maximum ambient temperature of 85°C.
