

'Unattended vehicles rolling away'

REDARC have just the solution....

Over the previous months there have been several reports of runaway vehicles.

In January, 2008 the [Resources Safety division](#) in the [Western Australian Department of Consumer and Employment Protection](#) has issued a [safety alert](#) following a number of incidents where **unattended vehicles rolled away** down slopes at mine sites. In the bulletin, the Department cited five incidents involving vehicles rolling down slopes due to failure to apply or correctly apply the park brake or other parking hazards.

There have also been several recent incidents resulting in serious damage...

May 29, 2008, an **empty, runaway truck** has crashed into a house on the Gold Coast, and towing crews believe the house may collapse if the truck is dragged out, about 11.45am (AEST), police were called after reports a truck and trailer had rolled down a driveway before crossing a road and into a house at Gaven. Police said they believed the vehicle had not been braked properly. <http://www.news.com.au/adelaidenow/story/0,22606,23779818-911,00.html>

July 09, 2008, a **DRIVERLESS runaway truck** caused spectacular damage in the eastern suburbs of Adelaide today, rolling down a hill, collecting a car and stopping against a house. <http://www.news.com.au/adelaidenow/story/0,22606,23992631-2682,00.html>

REDARC have just the product to assist in preventing this from occurring, the **REDARC HBA1224** Hand Brake Alarm. The **REDARC HBA1224** hand brake alarm is ideal for use in the truck, commercial, motor home, 4WD, caravan and camping industries.

In fact any where vehicles are fully laden or towing large loads and are therefore at risk of a runaway situation when parked on an incline no matter how slight...

The **REDARC HBA1224** Hand Brake Alarm has been designed for universal fitting, can be installed in both 12v & 24v applications. Its compact size (50x60x25mm) is perfect for dash mounting in most vehicles. Like ALL **REDARC** products, the HBA1224 is 100% Australian made and comes with a two year warranty.

For further information on the REDARC Hand Brake Alarm HBA1224 please contact Dylan Pinkard, customer service technician or any of the friendly team at REDARC on 08 8322 4848, power@redarc.com.au or visit www.redarc.com.au. Or media relations Caroline Kerkhof, Marketing Manager (08) 8322 4848 or email ckerkhof@redarc.com.au
