

## REDARC Listed in Technology Top 50

Adelaide, Australia, 29 November 2011

Family owned electronics manufacturer REDARC has been named in the 2011 Deloitte Technology Fast 50 Australia list.

REDARC Managing Director Anthony Kittel said that the company's achievement of being named in this prestigious list was recognition of the outstanding team at REDARC.

"The result reflects the efforts of a dedicated team who are focused on innovation, design and commercialisation of new products to achieve the best possible solutions for customers," said Mr Kittel.

"The REDARC philosophy is to have a world class facility with leading edge equipment and a team of passionate people who want to work here – these are the keys to winning new business. Since the GFC we have been able to hire some really good people, even though there's been a definite skills shortage of electronics specialists. We've created a business that people have heard of and want to work in. If we hear that good people become available then we will do our utmost to create a new opportunity for them and slot them in. If we don't have good people on board to make the growth happen then there's no chance", explained Mr Kittel.

Now in its eleventh year, the Deloitte Technology Fast 50 is a program that recognises and profiles Australian technology companies, public or private, that have achieved the fastest rates of annual revenue growth (based on percentage revenue growth over the last three years).

The program includes the following related industry sectors:

- Communications/networking
- Software
- Semiconductors, components and electronics
- Biotech, pharmaceutical and medical equipment
- Internet
- Computers and peripherals.

The Australian program is part of the global Deloitte Technology Fast 500 program run in parallel with the United States, Canada, United Kingdom, France, Norway, Sweden, The Netherlands, Germany, Central Europe, Israel, South Africa, China, Hong Kong, India, Japan, Korea, Malaysia, New Zealand, Singapore, Taiwan and Thailand. <http://www.tech50.com.au>.

Technology Industry Association CEO Mike Williams congratulated REDARC Electronics commenting that they are one of many successful niche electronic companies in South Australia. "It is great to see REDARC's amazing leading edge technology and state of the art manufacturing environment," explained Dr Williams.
