### **REDARC introduces PayPal and easy freight rates for online sales in USA/Canada**

REDARC is now offering customers who purchase products via the REDARC website an additional payment option of PayPal.

REDARC have introduced this additional payment method as PayPal is seen as the preferred payment gateway for people around the world. PayPal provides customers with the added security and peace of mind that their payment will be made safely, quickly and easily.

Along with the introduction of PayPal as a payment method, with PayPal able to take payments in up to 26 currencies, REDARC have also introduced freight options for customers purchasing product from USA and Canada.

Anthony Kittel, REDARC Electronics Managing Director and CEO said "We are getting a lot of enquiries from international markets and we wanted to make our product available via a flexible, convenient and safe payment method using freight options that reflected our customer is king approach to business"

Orders shipped to USA and Canada will be shipped directly from our factory in Lonsdale with delivery timeframes dependant on location and customs clearance. For Express freight options and other country locations, customers can contact REDARC for options and pricing.

REDARC is frequently recognised as an innovator in the research, design, development and manufacture of a range of electronic voltage converters, DC-DC battery chargers and trailer braking products and this latest step is another example of the company's commitment to customer satisfaction.
