

## **MEDIA RELEASE**

May, 2015

### **REDARC attending the Brisbane Truck Show**

REDARC is excited to announce it will be exhibiting at the Brisbane Truck Show from the 14<sup>th</sup>-17<sup>th</sup> of May at the Brisbane Convention & Exhibition Centre.

The **Brisbane Truck Show** is the premier event in Australia for the transport industry showcasing the latest in heavy vehicles, technology, engineering and innovation. Organised every two years by the Commercial Vehicle Industry Association of Queensland (CVIAQ), the event will attract approximately 300 exhibitors and up to 40,000 attendees.

REDARC had spent over 20 years working with trucking Original Equipment Manufacturers, Managing Director Anthony Kittel stated "Our business is built on trucking partnerships, REDARC engineers can provide a full design and prototyping capability to help solve problems a business may have."

Previewed at the show will be a new DC Power Supply, which will supply efficient regulated output power to all 12 or 24 volt loads – due for release mid-2015.

REDARC's expertise on customised Control Area Network (CAN) modules will also be demonstrated at the Truck Show, covering a wide range of applications within the trucking industry, REDARC will have key Engineers on hand to answer any CAN and other product related questions.

The new REDARC 2015 automotive electrical components catalogue will also be available at the Brisbane Truck Show, with over 90 pages of informative product information including specifications, installation tips, troubleshooting guides, glossary of technical terms and application guides.
